Plan To Improve The Highway To Alamogordo, N.M.

Chamber of Commerce To Provide A Tractor And Cleaner.

A tractor road, grader and cleaner will soon be in operation on the El Paso-Alamogordo highway. If plans now being considered by the El Paso chamber of commerce materialize, the chamber of commerce has proposed to purchase a tractor for use on the highway, provided the commissioners of Otero county, New Mexico, agree to keep the tractor on the El Paso-Alamogordo highway.

John M. Regan, assistant manager of the El Paso chamber of commerce, will meet Charles A. Cunningham, acting engineer of Otero county, Saturday afternoon at 3 o'clock to consider plans for placing the tractor on the highway.

The El Paso-Alamogordo highway is one of El Paso's most important trade arteries. Mr. Regan said Saturday. He explained that the good highway facilities northward from El Paso through Otero county are very essential to the industrial growth of El Paso and for this reason special efforts were being made to improve the Alamogordo highway.

The stretch of road between Newman and Otero, both in New Mexico, is reported to be in bad condition and it is between these two towns that the tractor will be first used.

It Looks As If The Dry Will Have To Stay Dry

Is there no relief for the thirsty? A number of those whose throats were somewhat parched, looked forward with anxious expectation to the signing of the peace treaty in the hope that they might legally purchase some of those appetizing liquors which have an enviable reputation as quenchers.

But there is no hope. Now comes the statement of the state official, made at that at peace with Germany we still are in a state of technical warfare with Austria.

Further, a recent act of the legislature, providing that liquors may not be manufactured or sold within this state, acts as a double safeguard and were there no cons limits still in existence, this law would prevent the importation of any liquor.

Such Travel Won't Be Permitted This Year; Business Agents May Go.

Business men will be permitted to send agents to any European country, following the signing of the peace treaty, but restrictions as to the return trip will continue in force because of the needs of space for soldiers and civilian war department employees. Measures to prevent undue travel to Great Britain also will be continued, as transportation and economic conditions in England are still far from normal.
